## QTEK STENCIL CLEAN

### Solvent For Cleaning Metallic Stencils during Printing Operations in Fluid/Wipe Form

#### Range of Applications

QTEK Stencil Clean has been specifically developed to quickly and cleanly remove solder paste, inks, flux and other stencil print materials. QTEK Stencil Clean is suitable for use in both vacuum and conventional under-stencil cleaning mechanisms as well as in pre-saturated wipe form. Compatible with reservoir and auto-feed solvent dispense systems.

#### Product Features

- Powerful cleaner versatile with metals, PCBs, and electronic assemblies
- Swift drying leaving no residue
- Non-flammable at ambient
- Environment friendly with low odour and no ozone depleting substances
- Available and applicable in fluid or wipe form

#### Chemical Composition

QTEK Stencil Clean has an evaporation rate and flash point appropriate to production conditions. These ultra-pure materials provide superior solvency, good wetting, and dispersing characteristics.

#### Product Features

<b>Flash Point:</b>	64°C	<b>Boiling Point:</b>	186°C
<b>Odour:</b>	Minimal to no odour	<b>Appearance:</b>	Clear Liquid
<b>Vapour Pressure:</b>	4mbar@37.8°C	<b>Specific Gravity @ 60°F:</b>	0.65

#### Safety Information

QTEK Stencil Clean should be stored in sealed containers of suitable materials. This product is neither corrosive nor ozone depleting. Though non-flammable at ambient temperature, it should not be stored or used near open flame or ignition sources. The Material Safety Data Sheet contains further safety information and should be consulted when using this product.

#### Availability

QTEK Stencil Clean is available in 500ml, 5litre and 25 litre containers, and also as a tub of 100 pre-saturated wipes.
