

SAFETY DATA SHEET

1. Identification

| Product identifier | HumiSeal Acrylic Gel |
|----------------------------------|--|
| Other means of identification | |
| Product code | HumiSeal Acrylic Gel |
| Recommended use | Protective Encapsulant for Printed Circuit Board |
| Recommended restrictions | None known. |
| Manufacturer/Importer/Supplier/I | Distributor information |
| Manufacturer | |
| Company name | CHASE CORPORATION Zeta Drive Plant |
| Address | 201 Zeta Drive |

| | | Lota Brito Flant |
|------------------------|------------------------------------|---|
| Address | 201 Zeta Drive | |
| | Pittsburgh, Pennsylvani | a 15238 |
| | United States | |
| Telephone | 1-866-932-0800 | |
| E-mail | Not available. | |
| Emergency phone number | 1-800-424-9300 (+1)703-527-3887 | Chemtrec, US Chemtrec, outside of US |
| | | |

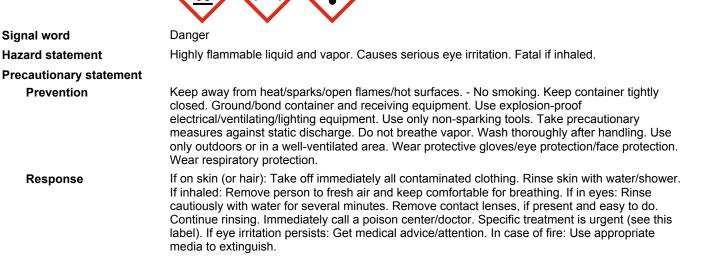

2. Hazard(s) identification

Physical hazards Health hazards Environmental hazards OSHA defined hazards

Serious eye damage/eye irritation Not classified. Not classified.

Flammable liquids

Label elements

Category 2

Category 2

| Storage | Store in a well-ventilated place. Keep container tightly closed. Store in a well-ventilated place. Keep cool. Store locked up. |
|--|---|
| Disposal | Dispose of contents/container in accordance with local/regional/national/international regulations. |
| Hazard(s) not otherwise classified (HNOC) | Static accumulating flammable liquid can become electrostatically charged even in bonded and grounded equipment. Sparks may ignite liquid and vapor. May cause flash fire or explosion. |
| Supplemental information | % of the mixture consists of component(s) of unknown acute inhalation toxicity. |

3. Composition/information on ingredients

Mixtures

| Chemical name | Common name and synonyms | CAS number | % |
|--|--------------------------|-------------|-----------|
| PROPYLENE GLYCOL MONOMETHYL ETHER ACETATE | | 108-65-6 | 50 - < 60 |
| ISOPROPYL ALCOHOL | | 67-63-0 | 10 - < 20 |
| SILICA | | 112945-52-5 | 1 - < 3 |
| Other components below reportable | levels | | 20 - < 30 |

*Designates that a specific chemical identity and/or percentage of composition has been withheld as a trade secret.

4. First-aid measures

| InhalationRemove victim to fresh air and keep at rest in a position comfortable for breathing. Oxygen or anticidial respiration in feeded. Do not use mouth-to-mouth method if victim inhaled the substance. Induce artificial respiration with the aid of a pocket mask equipped with a one-way valve or other proper respiratory medical device. Call a physician or polson control center immediately.Skin contactTake off immediately all contaminated clothing. Rinse skin with water/shower. Get medical attention if irritation develops and persists.IngestionRinse mouth. Get medical attention if symptoms occur.Most important symptoms/offects, acute and delayedSevere eye irritation. Symptoms may include stinging, tearing, redness, swelling, and blurred vision.Indication of immediate treatment neededProvide general supportive measures and treat symptomatically. Thermal burns: Flush with water immediately. While flushing, remove clothes which do not adhere to affected area. Call an amediately witing transport to hospital. Keep victim warm. Keep victim under observation. Symptoms may be delayed.General informationTake off all contaminated clothing immediately. Ensure that medical personnel are aware of the material(s) involved, and take precutions to protect themselves. Show this safety data sheet to the doctor in attendance. Wash contaminated clothing before reuse.J. Fier-fighting measuresDo not use water jet as an extinguisher, as this will spread the fire.Specific hazards arising from medical mediaWater fog. Alcohol resistant foam. Carbon dioxide (CO2). Dry chemical powder, carbon dioxide, s and or earth may be used for small fires only.Specific hazards arising from electricity accumulata static discharge, use proper bonding and gro | | |
|---|-------------------------------|---|
| attention if irritation develops and persists.Eye contactImmediately flush eyes with plenty of water for at least 15 minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Get medical attention if irritation develops and persists.IngestionRinse mouth. Get medical attention if symptoms occur.Most important symptoms/effects, acute and delayedSevere eye irritation. Symptoms may include stinging, tearing, redness, swelling, and blurred vision.Indication of immediate medical attention and special itreatment neededProvide general supportive measures and treat symptomatically. Thermal burns: Flush with water immediately. While flushing, remove clothes which do not adhere to affected area. Call an ambulance. Continue flushing during transport to hospital. Keep victim warm. Keep victim under observation. Symptoms may be delayed.General informationTake of fall contaminated clothing immediately. Ensure that medical personnel are aware of the material(s) involved, and take precautions to protect themselves. Show this safety data sheet to the doctor in attendance. Wash contaminated clothing before reuse.5. Fire-fighting measuresDo not use water jet as an extinguisher, as this will spread the fire.Suitable extinguishing media mediaVapors may form explosive mixtures with air. Vapors may travel considerable distance to a source of ignition and flash back. This product is a poor conductor of electricity and can become electrostaticality increased by the presence of small quantities of water or other contaminanted. Clothing epi say comunated, ignition of flamable mixtures and accur. To reduce potential for static discharge, use proper bonding and grounding procedures. This liquid may accumulate static electricity when filling propety group | Inhalation | artificial respiration if needed. Do not use mouth-to-mouth method if victim inhaled the substance. 6. Accidental release measures

| Personal precautions, protective equipment and emergency procedures | Keep unnecessary personnel away. Keep people away from and upwind of spill/leak. Eliminate al ignition sources (no smoking, flares, sparks, or flames in immediate area). Wear appropriate protective equipment and clothing during clean-up. Do not breathe vapors or spray mist. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. Ventilate closed spaces before entering them. Use appropriate containment to avoid environmental contamination. Transfer by mechanical means such as vacuum truck to a salvage tank or other suitable container for recovery or safe disposal. Local authorities should be advised significant spillages cannot be contained. For personal protection, see section 8 of the SDS. | | |
|---|---|---|--|
| Methods and materials for containment and cleaning up | Eliminate all ignition sources (no smoking combustibles (wood, paper, oil, etc.) away | g, flares, sparks, or flames in immediate area). Keep ay from spilled material. Take precautionary measures barking tools. This product is miscible in water. | |
| | possible. Cover with plastic sheet to prev | this is without risk. Dike the spilled material, where this is vent spreading. Use a non-combustible material like product and place into a container for later disposal. ith water. | |
| | | other non-combustible material and transfer to containers it material (e.g. cloth, fleece). Clean surface thoroughly to | |

| 13. Disposal consideration | • | | · · · | |
| Disposal instructions | | reclaim or dispose in sealed containers a ntainer in accordance with local/regional/ | at licensed waste disposal site. Dispose of /national/international regulations. | |
| Material name: HumiSeal Acrylic Ge | | | SDS U | |

| Local disposal regulations | Dispose in accordance with all applicable regulations. | |
|--|--|--|
| Hazardous waste code | The waste code should be assigned in discussion between the user, the producer and the waste disposal company. | |
| Waste from residues / unused products | Dispose of in accordance with local regulations. Empty containers or liners may retain some product residues. This material and its container must be disposed of in a safe manner (see: Disposal instructions). | |
| Contaminated packaging | Since emptied containers may retain product residue, follow label warnings even after container is emptied. Empty containers should be taken to an approved waste handling site for recycling or disposal. | |
